

Course: SHEQ MANAGEMENT COURSE
Duration: 5 days or Distance Learning option

There is a saying: “garbage in – garbage out”. The quality of our SHEQ professionals is deteriorating rapidly. Having a competent person managing a site/division/project is key to ensure legal compliance but also to implement a pro-active rather than re-active SHEQ management system. Having the confidence in ones’ ability to apply concepts such as DIFR; LTIFR; medical examinations; impact assessments; law of torts; behaviour base principles & many other MUST HAVE knowledge and skill will only benefit management and the organisation as a whole.

“There are no limits to what you can accomplish; except the limits you place on your own thinking.”

Course Objectives

Advantage ACT’s SHEQ Management course is designed to enhance the SHEQ professional’s knowledge and skills through a careful selection of critical topics that will supplement and enhance previous training and experience and pave the way toward safety officer and SHEQ management positions.

Course Outcomes

At the end of this course and with the use of the delegate course manual, candidate will be able to:

- Explain the changing role of the SHEQ professional.
- Understand/discuss the Risk management process.
- Identify the importance and discuss critical sections of the OHS Act/Mine Health and Safety Act, COID Act and various Environmental Laws.
- Explain the ISO9001, ISO14001 and OHSAS18001/ISO45001 concepts, as well as its relevance to the organisation.
- Evaluate corporate Occupational Health’s role within the management system, including occupational medicine, hygiene and primary health care.
- Discuss Environmental Management and apply basic principles to his/her working environment including an overview of ISO14001.
- Discuss Behaviour-based SHEQ and the positive influence it makes to a successful SHEQ management system.

Target Group

- Health and Safety/SHEQ Managers.
- SHE Officers.
- SHEQ Practitioners.

Pre-Requisites

- HIRA course
- Basic legal awareness on the Mine H&S act and/or OHSAct
- At least 3 years of either implementing or managing a Health and Safety, SHE, or SHEQ management system.

Language

This course is presented in the English language.

Learning Material

Candidates will use the SHEQ Management course manual and applicable legal sources.

Certification & Assignment

The course includes a practical assessment and if successful, you will be issued with a Certificate of Successful Completion.

Advantage ACT has implemented an electronic certification process. On being assessed “competent” all delegates will receive an e-mail notification indicating that their certificate is available at a “vault” location which they can access immediately to obtain the certificate. The certificate will be available at this site for 5 years and can be accessed indefinitely by the delegate. Should a hardcopy certificate be required an additional fee of R165.00 excl. Vat per certificate will be levied. Please indicate your choice when making the booking with Advantage ACT.

- Advantage ACT is a Department of Labour First Aid Training Institution: No. CI 413 for First Aid Level 1, 2 and 3.
