

Course: ISO 45001:2018 OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT INTERNAL / LEAD AUDITOR COURSE

Duration: 5 days - *Study time is required during the evenings.*

This new occupational health and safety standard is the replacement for OHSAS 18001:2007. The course equips delegates with international guideline knowledge and skills towards becoming a lead auditor within the ISO 45001:2018 auditing discipline.

Course Outcomes

This Occupational Health and Safety Management Systems Internal Auditor/Lead Auditor Training Course demonstrates the fundamental auditing principles and practices, in conformance with international as well as national recognised and accepted norms and regulations relating to OH&S requirements.

Course Outcomes

At the end of this course you will be able to:

- Prepare for, report on, and carry out the follow-up of audits.
- Have achieved the means to assess and improve on your own management system to comply with ISO45001
- Describe the purpose of an Occupational Health and Safety Management System.
- Explain the scope and other criteria for OH&S Audits.
- Interpret ISO45001 requirements.
- Identify and assess OH&S risks.
- Plan and conduct Audits against ISO45001, ISO19011 & ISO17021 standard requirements.
- Prepare Audit reports with valid and factual non-conformities that add value.

Who should attend?

Anyone who is, or aspires to be:

- Responsible for undertaking audits of contractors and / or suppliers.
- Responsible for implementing audit programmes.
- Responsible for implementing the ISO series of standards.
- Responsible for auditing an organisation's OHS Management System

Pre-Requisites

- All delegates are expected to have an understanding of the relevant ISO series of standards.
- Compulsory 2 or 3 Day ISO 45001 Implementation Course or equivalent.

Language

This course is presented in the English language.

Learning Material

Delegates will use both the ISO19011 & ISO45001 standards as well as the course manual, with detailed course notes included

Certification & Assignment

The course is activity-based and includes a practical assessment. If successful, the delegate will be issued with a Certificate of Successful Completion.

Quality products and quality services begin with quality thinking and quality auditors!

- Organizations around the world recognize the value of using management systems to control business risk and contribute value and rely on skilled professionals to assess the performance of their management practices to enhance efficiency and credibility.
- Customers are loyal to quality, not the company. With increasing globalization and competitiveness, it is more important than ever for organizations to use competent, certified auditors.
- Quality products and quality service begin with quality thinking and quality auditors!
- Each delegate will be supplied with morning tea/coffee, a LIGHT lunch and filtered water. Should you have requirements beyond what we provide, kindly make provision for it yourself.
